

Improving law firm document signing practices

What were the challenges?

- Documents filed to authorities needed to match strict and very specific criteria:
 - Bolagsverket (Swedish Companies Registration Authority) requires qualified signing for original documents
 - HM Land registry requires qualified signing for digital signing of deeds
- Employees (lawyers, solicitors, paralegals) and clients needed a simple and reliable way to sign documents - often in a remote setting
- There was a strong need to integrate signing into DocuSign and Adobe Acrobat Sign processes

The solution & benefits

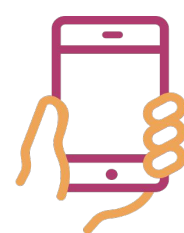

We provided a modern solution by offering remote identification and qualified signing in the leading global signing platform DocuSign through the ZealiD app. This integration fully matched client's signing processes and was beneficial from multiple perspectives:

Company benefits:

Fully remote signing cycle can take minutes, not weeks, to complete.

User benefits:

Smooth and easy signing in well-known platforms such as DocuSign or Adobe Acrobat Sign

Legal benefits:

We take full liability for compliance, identities and information security under EU authorization.
